## For Sale

**A**udi 80S. Red 1988. Club Member Lyn James has owned this virtually rust free example of an 80S from new. It's covered approximately 135,000 miles. The odometer has stopped working but the car has done very few miles since then. Apart from the odometer the car is in very good condition and still has plenty of life. Unfortunately Lyn isn't able to give her the exercise she needs and is keen for her to go to an enthusiast. The car has the 1.8 carburettor engine, manual choke, working electric windows and manual gearbox. MOT December 2020, regularly serviced.

Price – open to offers, needs a good home! Contact: Lyn on 01443 477 984 (Mountain Ash, South Wales).
