

# For Sale

**Audi 100 1.8LS 1973** – willing to give the car away as it is severely rusted – but it is complete with low mileage and could have useful spares. The car is in Peterborough, but the owner is in Norway and can be contacted on +47 9173 5812 or john55grant@hotmail.com.

**Classic Audi Cabriolet 2.3 (1993).** One owner from new and looking for a new enthusiastic owner. Silver with blue hood. Current mileage 78,692. £2,950 ONO. Please contact Barry: barrywells35@gmail.com.

**Ur-quattro.** Stolen & recovered in 1992 but only damage was a broken driver-side window. The car has no service history & was classed as written-off by the insurance. It is now 95% concours condition and Audi Newbury want to display it in their new dealership. A painstaking 'nut & bolt' restoration was carried out between 2015 & 2019 including a respray in the original red. The engine has had a top-end rebuild and a genuine replacement gearbox installed. The only modifications include up-rated front brakes using Porsche Boxer discs and Brembo calipers. The shut lines are perfect, the interior is in near perfect condition. Mileage is around 122,000. The ECU was recently rebuilt as I could not get a replacement, it has the green electronic dash and the talking computer works perfectly.

A lot of money and time has gone into this quattro and I am asking well below what it is worth because of its history & authenticity. Will come with a spare matching pair of 215/50/15 Dunlop tyres all in nearly new condition and any parts left over after the restoration. Originality of bodyshell and matching VIN/engine numbers & have original V5. Specification, colour, pin striping on shell in its original state. Looking for £29,995 ovno.

Please contact Joss on 07722 530 393 or email stoneartmemorials@gmail.com
